

Maximize the safety and appearance of your pool fencing with the addition of our new style, proprietary self closing, self latching, key lockable safety gate.

Exquisite safety gates are in-house constructed using the finest American made structural quality aluminum extrusions available. All gate extrusions are .125" thickness and are hand cut and welded in-house to assure our customers the safest and strongest gate available in the industry.

Our gates and gate trusses are powder coated in a five stage process to insure a lifetime quality finish.

Magna Latches and Tru-Close Hinges are well known to be the finest available gate hardware, come standard with our gates.

With the addition of a Exquisite safety gate to your pool fencing will give you quick easy access to your pool area and the self closing, self latching feature, will assure you the safety of unsupervised access to the pool area.
